# **Buenaventura Announces Second Quarter** and Six Month 2019 Results

Lima, Peru, July 25, 2019 – **Compañia de Minas Buenaventura S.A.A.** ("Buenaventura" or "the Company") (NYSE: BVN; Lima Stock Exchange: BUE.LM), Peru's largest publicly-traded precious metals mining company, today announced results for the second quarter (2Q19) and six-month (6M19) period ended June 30, 2019. All figures have been prepared in accordance with IFRS (International Financial Reporting Standards) on a non-GAAP basis and are stated in U.S. dollars (US\$).

#### Second Quarter 2019 Highlights:

- During 2Q19, Buenaventura generated US\$ 11.2 million in additional EBITDA through the Company's De-Bottlenecking Program, in-line with the budget target as reported at the beginning of the year (please see page 6 for more details). Through this program, BVN is increasing the efficiency of its Tambomayo, Uchucchacua, Orcopampa and El Brocal mines.
- 2Q19 EBITDA from direct operations was US\$ 45.7 million, compared to US\$ 87.4 million reported in 2Q18, primarily due to a reduction in volume sold at the Company's Orcopampa and La Zanja mines. This represents a positive sequential quarterly trend. 2Q19 Adjusted EBITDA including associated companies reached US\$ 128.4 million, compared to US\$ 190.1 million in 2Q18.
- 2Q19 capital expenditures were US\$ 28.8 million, compared to US\$ 31.2 million for the same period in 2018. This is in-line with the budget target as reported at the beginning of the year considering the heavy rains during the 1Q19.
- 2Q19 net income was US\$ 9.7 million, compared to a net income of US\$ 41.3 for the same period in 2018.
- The portfolio of greenfield projects continued to advance well during the quarter. Buenaventura expects to declare San Gabriel (Au), Yumpaq (Ag) and Trapiche (Cu) ore reserves during 6M20.
- At Cerro Verde, the concentrator facilities continued to perform well during 2Q19, with an average throughput rate of 407,700 metric ore tons per day in the second quarter. Cerro Verde maintained a robust cash position during 6M19.
- At Yanacocha, performance during the quarter was above expectations, with less transitional ore sent to the leaching PAD. Also, maintaining a significant cash position.

#### APPENDIX 4: COST APPLICABLE TO SALES RECONCILIATION

# Reconciliation of Costs Applicable to Sales and Cost Applicable to Sales per Unit Sold

Cost applicable to sales consists of cost of sales, excluding depreciation and amortization, plus selling expenses. Cost applicable to sales per unit sold for each mine consists of cost applicable to sales for a particular metal produced at a given mine divided by the volume of such metal produced at such mine in the specified period. We note that cost applicable to sales is not directly comparable to the cash operating cost figures disclosed in previously furnished earnings releases.

Cost applicable to sales and Cost applicable to sales per unit of mineral sold are not measures of financial performance under IFRS, and may not be comparable to similarly titled measures of other companies. We consider Cost applicable to sales and Cost applicable to sales per unit of mineral sold to be key measures in managing and evaluating our operating performance. These measures are widely reported in the precious metals industry as a benchmark for performance, but do not have standardized meanings. You should not consider Cost applicable to sales or Cost applicable to sales per unit of mineral sold as alternatives to cost of sales determined in accordance with IFRS, as indicators of our operating performance. Cost applicable to sales and Cost applicable to sales per unit of mineral sold are calculated without adjusting for by-product revenue amounts.

The tables below set forth (i) a reconciliation of consolidated Cost of sales, excluding depreciation and amortization to consolidated Cost applicable to sales, (ii) reconciliations of the components of Cost applicable to sales (by mine and mineral) to the corresponding consolidated line items set forth on our consolidated statements of profit or loss for the three and nine months ended September 30, 2015 and 2016, and (iii) reconciliations of Cost of sales, excluding depreciation and amortization to Cost applicable to sales for each of our mining units. The amounts set forth in Cost applicable to sales and Cost applicable to sales per unit sold for each mine and mineral indicated in the tables below can be reconciled to the amounts set forth on our consolidated statements of profit or loss for the three and nine months ended September 30, 2015 and 2016 by reference to the reconciliations of Cost of sales, excluding depreciation and amortization (by mine and mineral), Selling Expenses (by mine and metal) expenses and Exploration in units in operations (by mine and mineral) to consolidated Cost of sales, excluding depreciation and amortization, consolidated Selling Expenses and consolidated Exploration in units in operations expenses, respectively, set forth below.
